

# Call for Participants: On-line workshop with Haraldur Karlsson

*Virtual workshop on the  
artistic use of  
Magnetic Resonance  
Imaging (MRI)  
April 28th - May 28th, 2020*

Every Tuesday and Thursday, from **April 28th  
through May 28th from 4pm (CET)**  
(excluding May 21st and May 26th)

Number of meetings: **8**

Course capacity: **10 participants**

Meetings will take place through an online  
communication platform.

Access will be provided upon registration.

*The course will be in English and is free  
of charge.*

Candidates who will be able to attend all  
lessons are kindly requested  
to apply at [info@vasulkakitchen.org](mailto:info@vasulkakitchen.org)

**This workshop is designed for artists  
working with video and who are interested in  
experimenting with image processing using  
scientific image capturing methods and their  
connotations.**

Vašulka Kitchen Brno in cooperation with  
Icelandic artist Haraldur Karlsson has prepared  
our first on-line professional workshop of eight  
consecutive meetings. The course is suitable  
for those who are looking for real-time digital  
image processing and who are interested in  
current video technologies. Haraldur Karlsson  
will mediate the procedures and show the  
capabilities of current software and digital  
data with the involvement of MRI scans (human  
organ imaging using magnetic resonance  
imaging) in a series of live interactions with the  
possibility for questions, and the search for an  
individual and personal approach.
